

COUNTY OF SAN MATEO

Inter-Departmental Correspondence

Date: February 15, 2001
Board Meeting Date: March 6, 2001

TO: Honorable Board of Supervisors
FROM: Neil R. Cullen, Director of Public Works
SUBJECT: Water System Improvement at Cordilleras Center – San Carlos/Redwood City Area (Project No. P2A01)

RECOMMENDATION

Adopt a resolution adopting Plans and Specifications, determining prevailing wage scales and calling for sealed proposals to replace the existing water storage tanks at Cordilleras Center.

Key Fact

The existing storage tanks (two 40,000 gallon redwood tanks) were constructed in 1949 and have reached the end of their useful life. In addition, more storage is needed to meet current fire flow and domestic storage requirements for the existing and new facilities at the Cordilleras Center (Mental Health Facility, Youth Crisis/Residential Facility and the Fire Station).

Discussion

We have developed contract plans and specifications for dismantling the two existing redwood tanks and constructing a new, single 150,000 gallon bolted steel tank. Modifications to the existing piping is included in the contract's proposed scope of work as the San Mateo County Fire Department has also determined that the existing fire hydrants do not meet current fire flow requirements of 750 gallons per minute for a 2 hour duration at 20 pounds per square inch residual operating pressure.

Fiscal Impact

An appropriation of \$69,500 was approved in the 2000/2001 Capital Projects Budget for this work, which is financed by General Funds. We do not know if the appropriation will be sufficient to finance the proposed work given the current construction market and the higher than normal bids that the current market is generating. We will evaluate the bids once they are open and then make a recommendation to your Board.

A form of Resolution has been approved by County Counsel.
