SUBJECT: Chip or Cape Sealing of Various Roads - County Wide

RECOMMENDATION

Adopt a resolution adopting plans and specifications, determining prevailing wage scales and calling for sealed proposals for the Chip or Cape Sealing of the various roads shown on the attached maps.

Previous Board Action

Adopted a resolution authorizing the Director of Public Works to proceed with the preparation of plans and specifications for resurfacing type projects on various County roads utilizing funds pursuant to Assembly Bill 2928 (AB2928)

Key Facts

The proposed project is part of our overall program to preserve the County maintained road system.

Discussion

The proposed Project, totaling approximately 13.06 miles in length, consists of placement of a cape seal (a chip seal - a combination of aggregate and an asphaltic emulsion - and a slurry seal - a combination of sand and asphaltic emulsion) over the existing pavement on Cloverdale Road; and a chip seal over the existing pavement on various roads in the Skyline Area between Highway 92 and Highway 84, and in the La Honda area off of Highway 84. Pavement repairs to the various roads will be done prior to the placement of the chip or cape seal.

The County's Planning Division has reviewed the project and determined that it is exempt from the requirements of the California Environmental Quality Act (CEQA) and a notice of exemption has been filed with the County Clerk pursuant to Section 15302, Class 2 of CEQA.

This project has also been determined by the Planning Division to be exempt from the requirement for a Coastal Development Permit and they have certified Exemption Number 2001-0065
