

COUNTY OF SAN MATEO  
INFORMATION SERVICES DEPARTMENT

DATE: September 18, 2001  
HEARING DATE: October 2, 2001

TO: Honorable Board of Supervisors  
FROM: Luther Perry, Director Information Services *Luther Perry*  
SUBJECT: eGovernment Project Quarterly Report

**RECOMMENDATION**

Approve second quarter status report from the Information Services Department (ISD) for the eGovernment project.

Background

Your Board approved at your August 7, 2001, meeting the first quarterly status report for the eGovernment project. In that report we listed eGov objectives and major policy issues. We also presented the internal project organization was and its relationship to the County community. Finally we provided a detailed project plan of the first quarter's activities.

Summary of First Quarter's Accomplishments

- ◆ Approval of the first quarter's report by Executive Council and Board of Supervisors.
- ◆ Staffing and creation of the Web Management Committee responsible for Web standards and the "look and feel" of the County's web site. Those members are:
  - ◆ Lee Buffington - Tax Collector / Treasurer
  - ◆ Maureen Borland - Director Human Services Agency
  - ◆ Loren Buddress - Chief Probation Officer
  - ◆ Reyna Farrales - Deputy County Manager
  - ◆ Luther Perry - Chief Information Officer
- ◆ Completed staffing strategy for all workgroups and specifically staffed both the Content Organization workgroup and the Infrastructure workgroup.
- ◆ Completed our review of other government agencies to seek and identify best practices, things not to do, and potential areas of collaboration. This consisted of 12 in-depth interviews.

- ◆ Completed a draft document reviewing web site human factors and usability for our current site, and recommendations for the new web site. This was performed by an accredited usability expert. The usability review encompassed areas of general ease of use, site navigation, web page GUI format and ADA/Section 508 compliance. The recommendations identified user groups of the site, listed baseline GUI requirements and identified requirements for ADA/Section 508 compliance for the new site. It also reviewed 11 other government sites, noting things to do and things not to do.

#### Tasks In Process

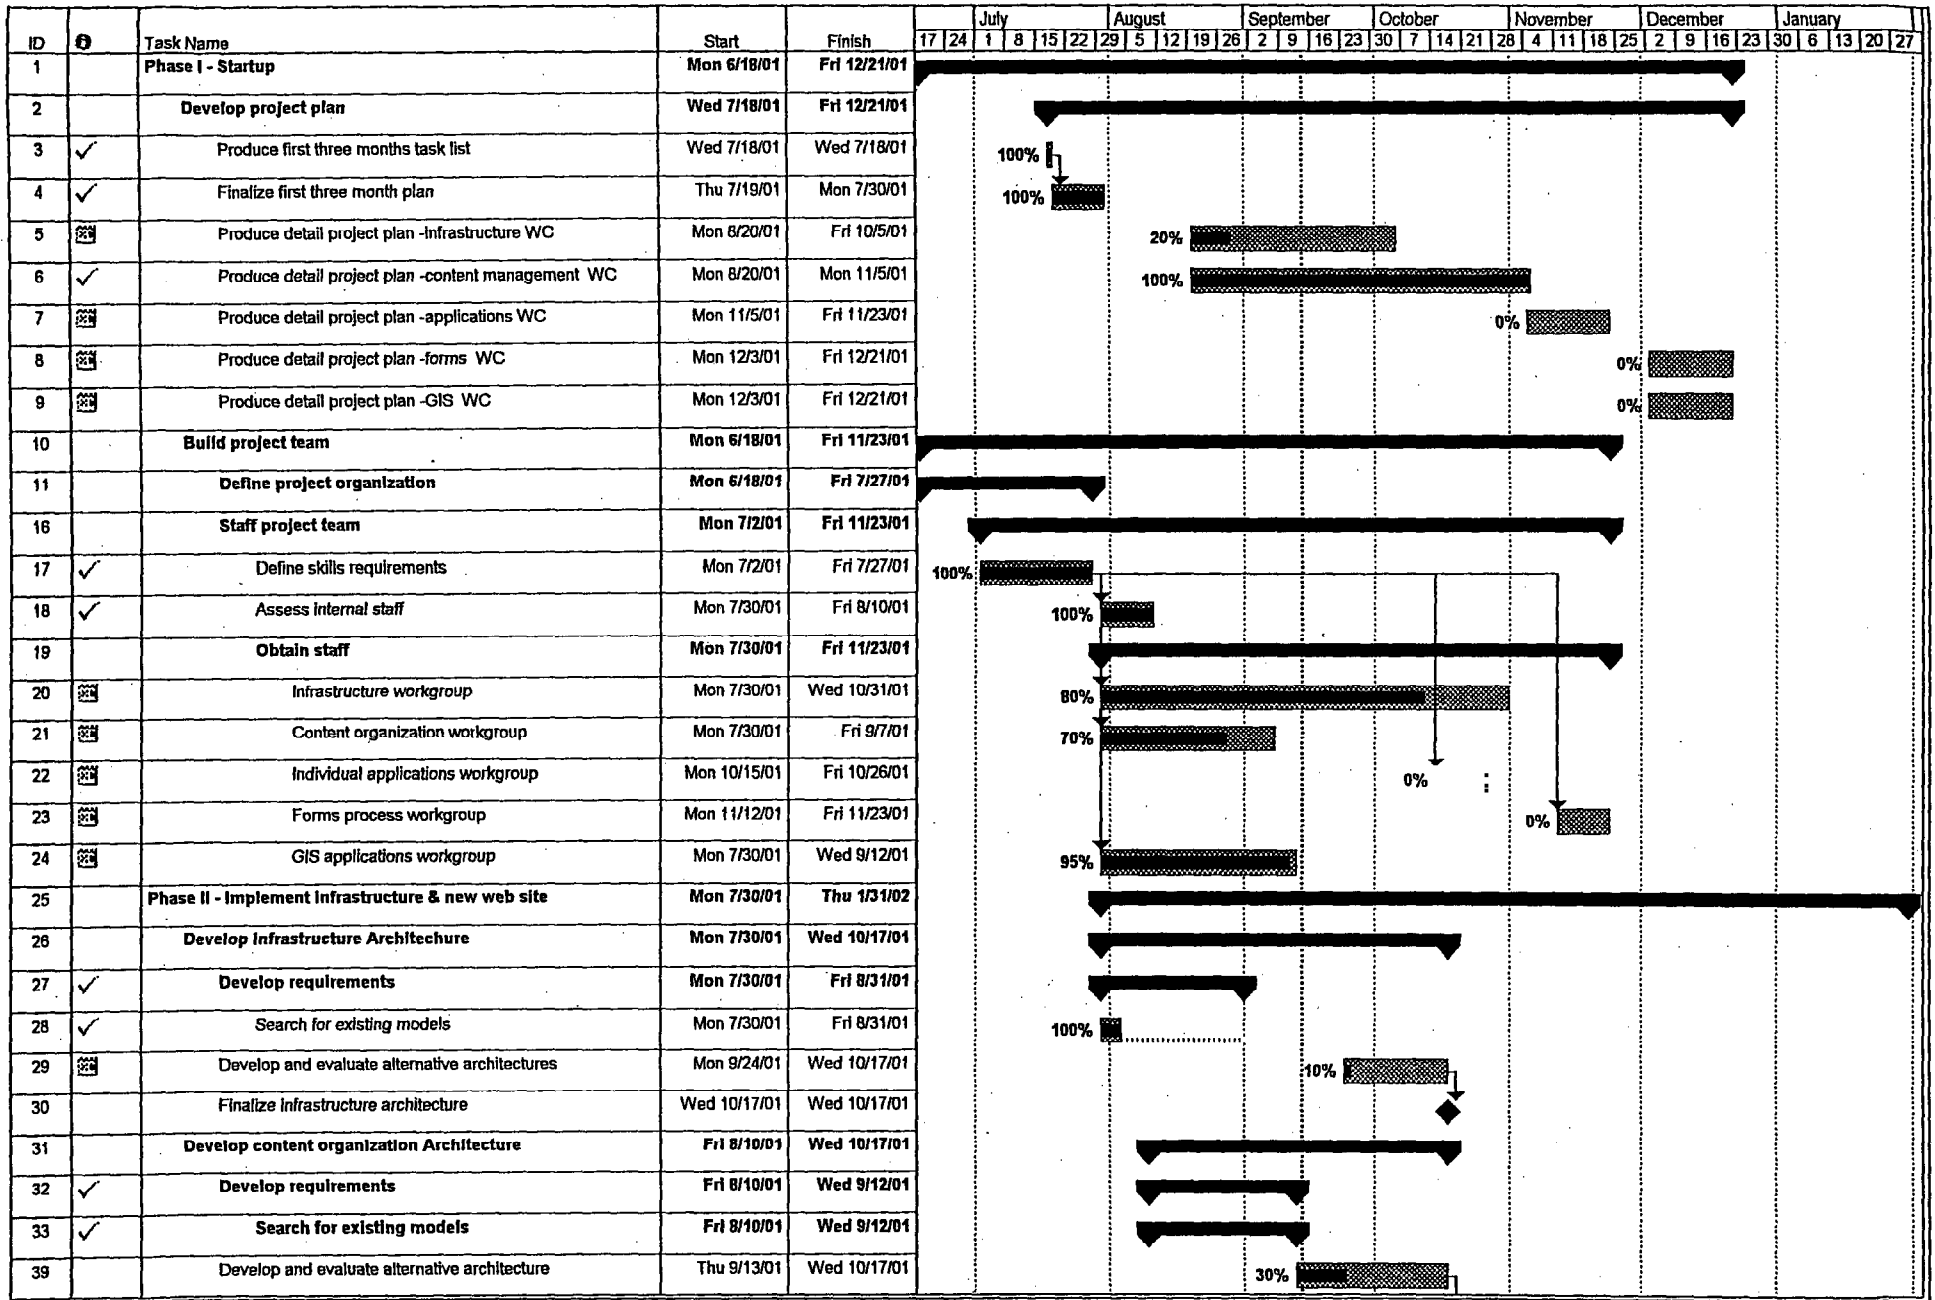

- Creation of the design for the technical infrastructure required to support the new site and services.
- Creation of the design to support the static content of the new site.
- An RFP for a vendor to aid County staff in the development of "look and feel" and navigation structure for the new site.

#### Second Quarter Tasks

- ▶ Completion of the design for the technical infrastructure and significant progress in its implementation.
- ▶ Completion of the design to support static content and significant progress in its implementation.
- ▶ Approval from the Web Management Committee of the "look and feel" and navigation structure of the new site.
- ▶ Initiation of conversion efforts of the existing site to the new structure.
- ▶ The initiation of activities to form the Applications, Forms and GIS workgroups. This will include the identification of pilot projects for each of these workgroups
