#### Voics

Per section 4.4 of the contractual agreement between the County of San Mateo and Turner, Contingency funds not expended shall be split 60%/40% between the County and Turner. The current Project Budget Report dated 11/14/02 (attached) indicates (\$369,919) in Contingency savings. However, \$218,519 of the savings will be expended to cover Indirect and Direct cost overruns, leaving (\$151,400) in eligible savings participation. This value is computed as follows:

Indirect Cost Overrun: 151,398 Direct Cost Overrun:

Contingency Savings: (369,919)

DOO U.S. Date

Project Cost Savings: (151,400)

The County's portion of this savings amounts to \$90,840 (60% of \$151,400).

In addition, the amounts requested in Change Order requests 77,78,79 and 80 will replenish \$105,116 of Contingency used to cover Indirect cost overruns. Subsequently, the Contingency savings would increase by the same amount.

The County's portion of this savings amounts to \$63,069.65 (60% of \$105,116)

This deductive Change Request refunds both of the savings participation values discussed above. This change is contingent upon approval of Change Order Requests 77, 78, 79 and 80. If part or parts of Requests 77, 78, 79 and 80 are not approved, this Change Request will be voided. In that instance, this Change Request will be revised and resubmitted to reflect the altered amounts.
