Dear Nancy:

On September 20, 2006, Sequoia Healthcare District's Board of Directors approved a grant to San Mateo Medical Center in the total amount of \$3,310,700, payable over two years, to supplement the cost for uninsured care at the Fair Oaks Clinic to assist the Clinic in their goal of achieving financial stability over the two-year grant period, as described in your letter of September 12, 2006, to the Board of Directors.

Accordingly, Sequoia Healthcare District will make grant payments to the Medical Center on a quarterly basis, not to exceed \$1,655,350 per year. The grant is for the fiscal years ending June 30, 2007 and June 30, 2008. The Medical Center will invoice Sequoia Healthcare District, on a quarterly basis, to include reports indicating the volume of uninsured patients being served with District funding and an itemization, by line item, of the expenses of the Clinic, adjusted to demonstrate the amounts expended on uninsured patient care. On an annual basis, the Medical Center will provide to Sequoia Healthcare District information as to what public health benefits were achieved as a result of having the grant, and any other information that will enable Sequoia Healthcare District's Board and the public to understand the effect and value of the grant funding.

These funds are to be used solely to support the Medical Center for indigent and uninsured residents of Sequoia Healthcare District seeking care at the Fair Oaks Medical Clinic for outpatient primary medical care, ancillary services (laboratory, pharmacy, radiology), and specialty medical care.

Sincerely,

Stephen F. Scott, CEO
