

## Attachment B - Proposed Parking Zone

Proposed location for no parking across from Las Lomitas School

### **Discussion regarding arguments in-favor of the proposed no parking zone:**

1. Neighbors residing directly in front of the school have requested a no parking zone in front of their properties to alleviate traffic congestion during morning and afternoon pickups.
2. The school supports a no parking zone proposal as it would increase safety for students and parents.

### **Discussion regarding arguments opposed to the proposed no parking zone:**

1. Property Owner at 2003 Camino al Lago, requests that the no parking zone not be extended to their property.
2. Property Owners located on the Atherton side and on the west side of the Alameda de Las Pulgas have raised the issue that the proposed no parking zone would increase spillover parking in front of their driveways.

### **Staff's recommendations:**

1. Recommend a "No Parking Zone" from the Alameda de Las Pulgas to a point just short of 2003 Camino al Lago near Barney Avenue.
2. Las Lomitas School will relocate staff parking to the rear parking lot leaving approximately 28 additional parking spaces for public parking in order to reduce spillover parking.
3. Recommend a No Parking Zone in order to facilitate traffic movements on this narrow roadway.
