FINDINGS OF DENIAL

Permit or Project File Number: PLN 1999-00015

Hearing Date: November 10, 2004

Prepared By: Dave Holbrook

Adopted By: Planning Commission

FINDINGS

Regarding the Coastal Development Exemption, Find:

1. That the proposed residence conforms to Section 6328.5.e of the County Zoning Regulations and is located within the area designated as a Categorical Exclusion Area.

Regarding the Coastsides Design Review, Find:

2. This project has been reviewed under and found to be not in compliance with the Standards of Review Criteria as stipulated in Chapter 28.1 of the San Mateo County Zoning Regulations. Specifically, there was not adequate evidence to support the following standards:
 - a. Is not designed and situated so as to retain and blend with the natural vegetation and landform in that the proposed structure does not blend with the natural contours of the site.
 - b. Is not in harmony with the shape, size and scale of adjacent buildings in the community in that the proposed structure does not relate to adjacent buildings and to the neighborhood.

RE: PLN 1999-00215: Coastside Design Review and Coastal Development Permit
PLN 1999-00015: Coastside Design Review and Coastal Development Permit

The above applications were reviewed by the MCC Planning and Zoning Committee on Wednesday, March 17, 2004. Mr. Mahon did not attend the meeting or respond to my invitation to meet prior to the meeting to avoid any neighborhood conflict. We received both written and public comment regarding this item.

Our meeting ran very late (after 11:30 PM), and today our members have previous work commitments. The issues surrounding these cases are too numerous and complex to respond to fully in such a short timeframe, so in this letter I have summarized our position. A more detailed letter will follow next week.

The Committee voted to unanimously to request that County planning staff deny PLN1999-00015, and to request that the Planning Commission deny PLN1999-00215 as currently submitted. Our decision was based primarily on the basis of the following points:

- Plans submitted were inadequate in detail, and did not include any information on materials, finishes, landscaping, tree removal, grading, or driveway slope and access. Information provided on floor area and coverage was either sketchy (PLN1999-00215) or non-existent (PLN1999-00015). The plans were only on legal size sheets instead of blueprint size, with no easily verifiable scale or dating and incomplete elevations and site plans.
- Plans that were provided showed potential gross errors, such as (PLN1999-00215) a detached garage in the front yard setback and with only a 3' side setback. The slope of the lot does not qualify this project for that exemption.

- We see no indication from these plans that any of the earlier issues regarding compatibility with the size, scale and character of the surrounding community have been addressed.
- Other issues and alternatives, such as re-orienting the lots, lowering the houses toward grade, and increased stepping of the design for better conformance with the topography, have not been addressed.
- Plans that were supplied to the Committee for PLN1999-00015 were substantially different from those supplied to the neighbors in the notification mailing. The neighbors had received no notification of any action regarding PLN1999-00215.

The Committee stands by its earlier recommendations for denial on both these projects, and we see no reason from the supplied materials to change that position.

Thank you for your consideration of these issues. We have heard considerable concern from the neighbors about these projects, enough to warrant a full hearing on the matter. Please keep us informed of the status of these projects. Our Committee will do whatever we can to help reach a compatible solution between the neighborhood and the property owners.
