

Attachment A – Map of Proposed Traffic Control Device Locations and Public Input Summary

Installation of One Stop Sign in Burlingame Hills Area

June 29, 2010

Figure 1. Proposed Traffic Control Devices

Table 1. Public Input Summary

Date	In Favor	Oppose	Neutral	Comments	Response
5/14/10			X	Would like this intersection to be a 4-way stop (to stop traffic on Canyon Road, as well).	This intersection does not qualify for a 4-way stop at this time.
5/15/10			X	Does not object, but does not see a need for a sign on Fey Drive because drivers already stop when they approach Canyon.	The new sign will assign right of way to Canyon Road and clarify the intersection for visitors.
